PANTA REI

Flowing Through Tor des Géants®

A documentary from the paths of one of the toughest endurance trails in the world.

Existence flows. With it flows the man and his natural soul. Tor des Géants® is flowing into emotions, human beings, life.

PANTA REI is born from the will to get carried in this river of existence, a "metaphysical" documentary filmed on the trails of the legendary Endurance Trail of Aosta Valley.

Pillow Lab, a production company located in Trentino (Italy) and with several year experience in the outdoor field, offers us this unusual point of view born from the direction of Luca Albrisi and Alfredo Croce, but above all from the countless hours spent on the trails of Tor des Géants® (www.tordesgeants.it) and the many encounters that come from these experiences.

Let yourself be carried by images and words, but above all by the flowing spirit of a unique journey that twist and turn itself in a fantastic territory and in the depths of the human mind.
